

# Balancing Butterfly

Make a brightly coloured butterfly to balance on your finger, the corner of a box or a piece of furniture.

1. Cut out the square containing the butterfly template and stick onto card.  
(You can cut out the butterfly and then stick to card but this makes a neater result).
2. When the glue is dry, colour in the butterfly.
3. Carefully cut out the butterfly.

CITY COUNCIL

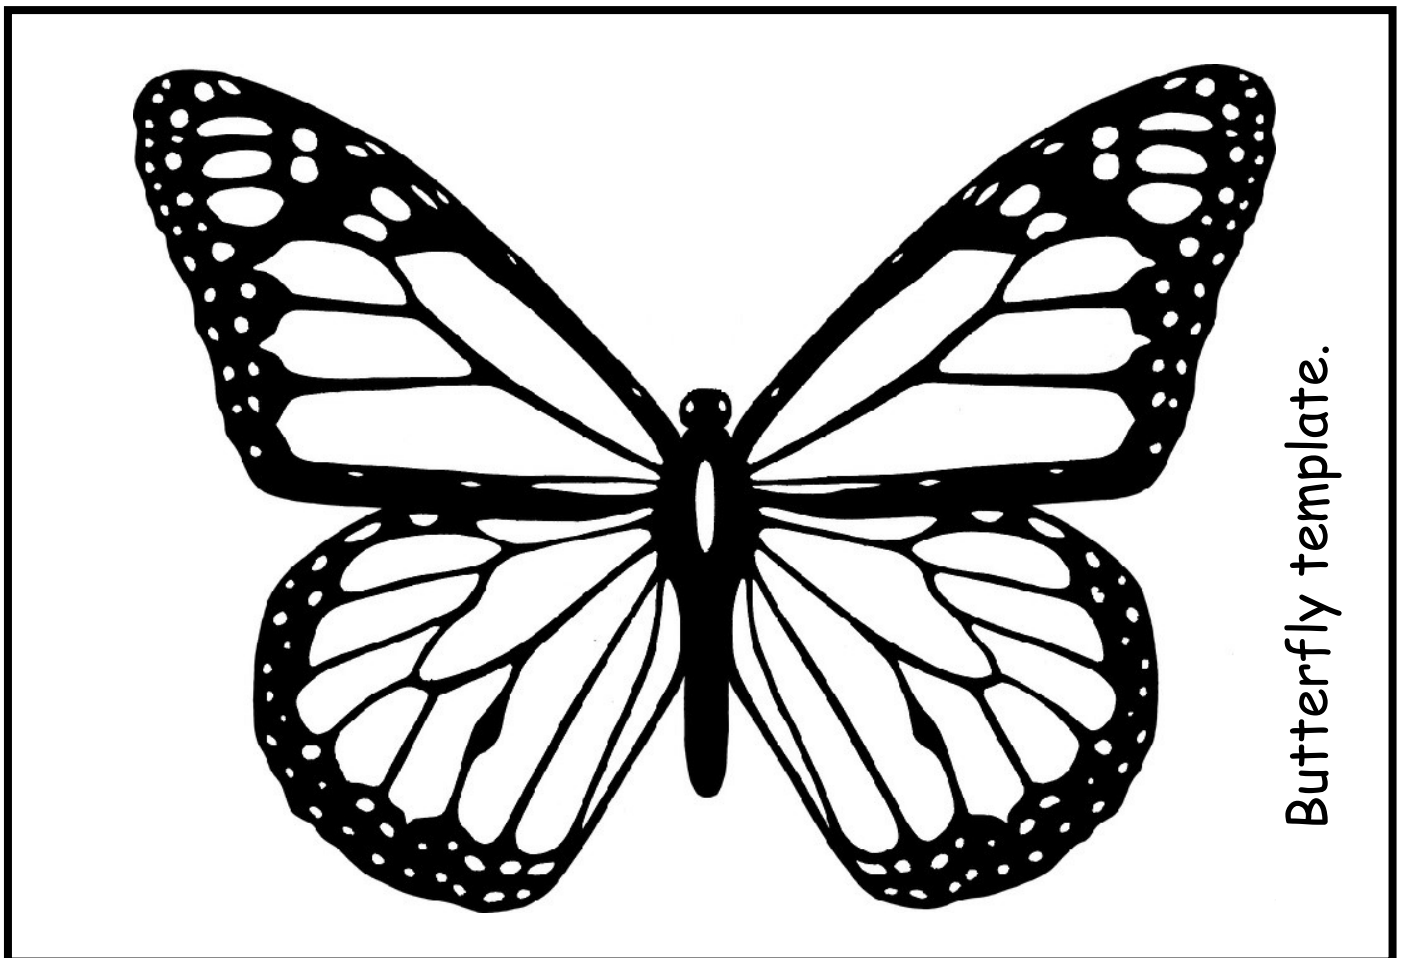

Portsmouth Natural History Museum

4. Using sticky tape, fix a 1p coin to each side of the underside middle of the wings.

Try balancing the butterfly.

You might have to adjust the positions of the coins.
