Sea Birds

Here are some birds that can be seen by the seaside.

Activity 1: Can you match the pictures with the names?

A

B

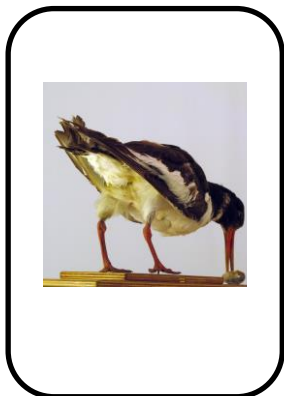

Gannet

Puffin

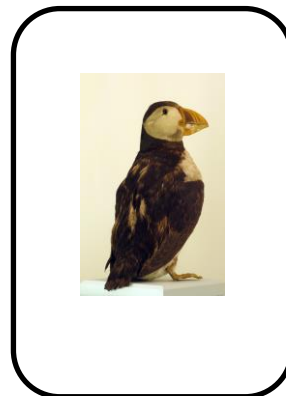

Razorbill

Oyster-catcher

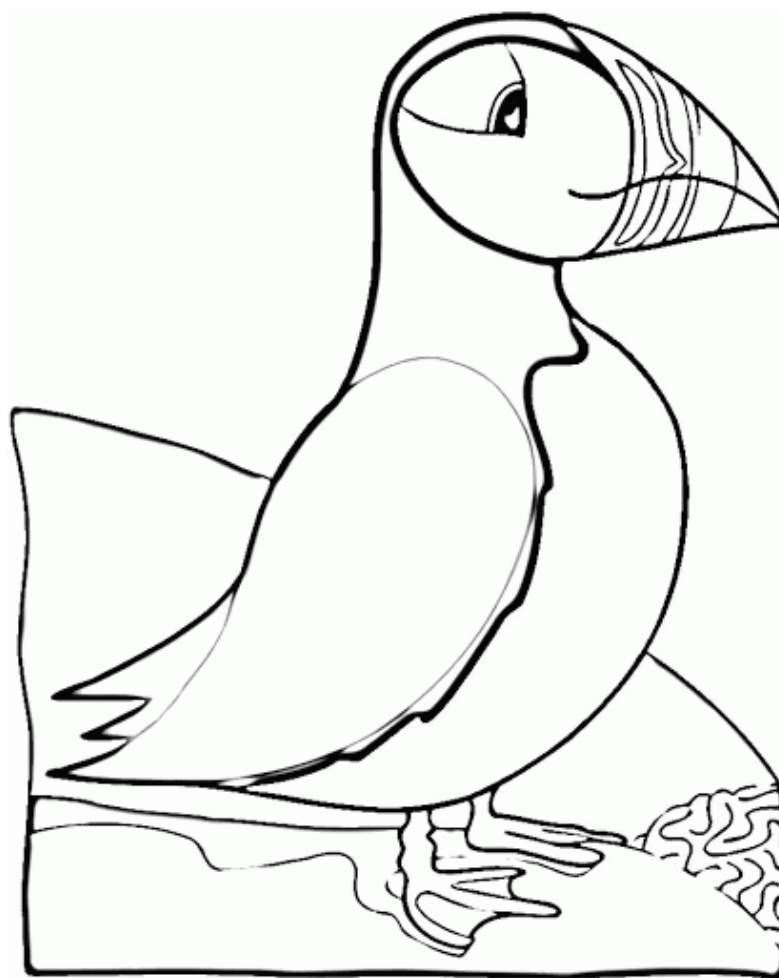

C

D

Activity 2 Can you colour in Pete the Puffin?

Activity 1 Answers: A Razorbill B Gannet C Oyster-Catcher D Puffin

Activity 3 Answers: They are all true!

Activity 3 Five fun facts about sea birds but are they true or false?

1. Seabirds have webbed feet so they can swim at fast speeds.
2. Puffins mate for life and have only one baby every year.
3. An albatross served as an airplane in the Disney movie, The Rescuers.
4. The main diet of the oyster-catcher seldom involves oysters in the UK! They predominantly eat bivalves, including cockles and mussels.
5. When a Gannet dives for its food it reaches a speed close to 100 kilometres per hour.

Activity 4 Follow this link to do a jigsaw puzzle of a [Puffin](#)
