

Waft the Butterfly

Have fun trying to waft a butterfly across a room or garden.

Cut out a butterfly shape (about A4 size) from a sheet of newspaper or use the template below. (We have found that newspaper works best for wafting).

Using a rolled up newspaper, waft your butterfly across a room or garden by vigorously waving the newspaper.

(You might want to clear a space first!)

Why not?

Make more butterflies and challenge other members of your family to a race.
